

Purse Organizer Recipe

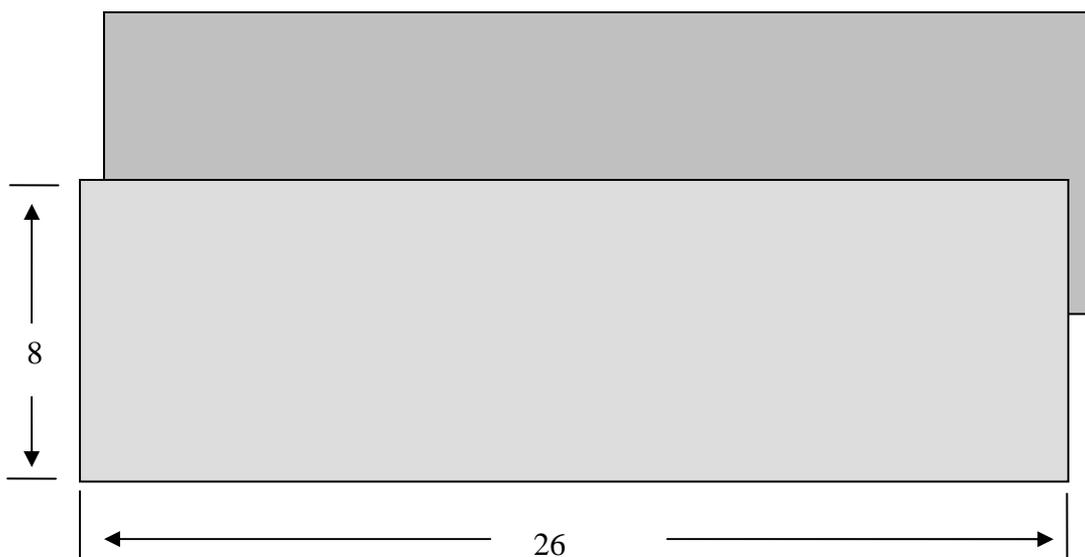

Ingredients:

- Some pretty fabric. You could sew this with the same fabric for inside and out, but it's best made with two complimentary fabrics. Your fabric requirements could change depending on the filling for your organizer.
- Very stiff iron on interfacing-in Germany #250

* Wash, dry and iron your fabric as you would the finished case before cutting out your pieces.

Directions:

1. Cut out once piece of each fabric- 26 inches by 8 inches.
2. Cut out 2 pieces of interfacing- 26 inches by 8 inches.

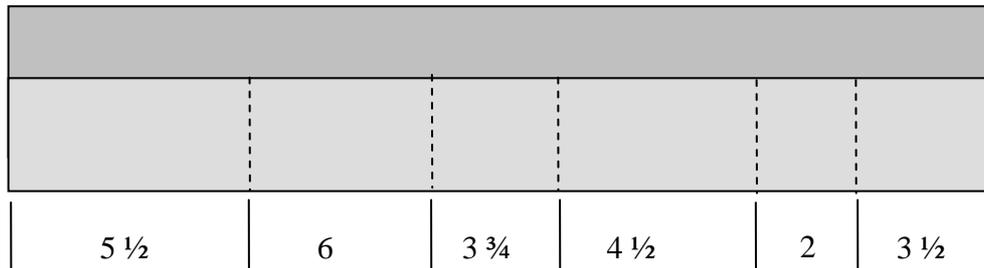

3. Iron the interfacing to the wrong side of the fabric pieces.

4. With right sides facing sew the pieces together using a $\frac{1}{2}$ inch seam allowance. Be sure to leave a 2-inch hole to pull the fabric through.
5. Clip the corners close to the stitching.
6. Turn the fabric inside out by pulling the right sides through the hole.
7. Push out your corners with a narrow tool.
8. Iron the fabric flat.
9. Edge stitch around the entire rectangle.
10. Fold up the bottom edge about 3 inches.

11. Stitch the sides close to the edge.
12. Measure each of the items that will be in the organizer and add an inch.
13. Sew pockets the size of the things you keep in your purse plus 1 inch.

This is the placement for the stitching of the organizer I made:

Thanks to the interfacing, the fabric stays stiff while you take out your wallet, so it's easy to find the pocket again to replace it. I love mine.

Next time you change purses just take out the entire organizer out and place it in your new purse.

Eat up!

This is how my finished organizer looks all ready to be placed in my next bag.
